

Petition to Save the Leopold Center Funding  
Current as of 8 pm April 16th

Save the Leopold Center!

We recently learned that legislative budget proposal for next year eliminates all support for the Leopold Center. This is unacceptable. Tell our legislators that the Leopold Center's funding must remain in our state budget!

We are asking all who support the Leopold Center to 1) sign this petition and 2) call their legislators today to share your concerns.

This bill is expected to move very quickly so it is imperative you reach out as soon as possible. You can call your legislators at the Capitol. The Senate switchboard number is 515-281-3371, and the House switchboard number is 515-281-3221. You can also find your legislators and their emails at <https://www.legis.iowa.gov/>

Funding for the Leopold Center for Sustainable Agriculture is important to Iowa's future as an agricultural state. For 30 years, the Leopold Center has sponsored the work of Iowans concerned about their water and soil resources through more than 600 research projects---on topics spanning water quality, manure management, livestock grazing, cover crops, alternative conservation practices, biomass production, soil health and local food systems development in Iowa.

Many of the practices now recommended in Iowa's Nutrient Reduction Strategy (such as streamside buffers, erosion control measures, bioreactors) were first researched through Leopold Center funding of more than \$5M at Iowa State University. Iowa's thriving local foods networks benefited from Leopold Center grants leveraged with nearly \$1M in funds from the W.K. Kellogg Foundation and the Wallace Foundation.

If you look at just six of the major projects the Center funded, we can tell you that for every dollar the Leopold Center spent on these projects, an additional \$4.60 was leveraged to complement or expand the work. All of this money went to Iowans to help conserve Iowa's precious natural resources. (<http://www.leopold.iastate.edu/change>)

This petition was started by recent ISU graduates who benefited from the Leopold Center's research opportunities. We will share this petition with ISU's leaders and the state legislators in advocating for the Leopold Center's future. Please share this widely.

By signing this petition, we stand with the Iowa State University Leopold Center. It is imperative that the Center be funded in full and that the state's public funds dedicated to research on water quality continue to be managed through the Leopold Center's transparent grant making process, as was initially mandated by our state legislature at the Center's founding.
